

Award-Winning Views at Ski Juwel Alpbachtal Wildschönau

Wiedersberger Horn ranks among Austria's most beautiful winter panoramas!

Snow-covered peaks, sparkling slopes and breathtaking mountain scenery – the panorama from Wiedersberger Horn in the Alpbachtal valley is officially one of Austria's most stunning winter views. At the feratel PanoramaAward 2025/26, the panoramic camera located at the top station of the Hornbahn 2000 lift at the Top of Alpbachtal, the highest point in Ski Juwel Alpbachtal Wildschönau, achieved an outstanding 4th place in the **"Winter Wonderland Austria"** category. This makes **Ski Juwel Alpbachtal Wildschönau the only ski resort in Tyrol to rank among the Top 5.**

With almost 14,000 votes cast and 271 panoramic cameras participating from Austria and Switzerland, the feratel PanoramaAward is one of the most prestigious public voting competitions for tourism panorama imagery. The international community voted for destinations that captivate visitors with exceptional views and unforgettable natural scenery.

For many winter sports enthusiasts, the excitement of the next ski day begins long before they arrive in the mountains. A glance at the live panoramic cameras from Ski Juwel Alpbachtal Wildschönau is enough to escape the grey everyday routine. Snow-covered peaks, endless white landscapes and the spectacular mountain scenery of the Kitzbühel Alps awaken the longing for winter. Especially in the early morning hours, when the first rays of sunshine bathe the snowy slopes in golden light, these magical moments inspire the desire for a perfect day in the mountains.

Whether inspiring the next winter holiday or building anticipation for a day on the slopes, the panoramic cameras capture the unique moments that make Ski Juwel Alpbachtal Wildschönau so special. The Top 5 ranking at the feratel PanoramaAward once again demonstrates that this winter wonderland fascinates winter sports enthusiasts far beyond the region's borders.
